DAVE QUINN
FULL STACK WEB DEVELOPER

w: qcent.github.io/dev-portfolio
e: dquinn8@cogeco.ca
m: 2268860102

Profile

Highly versatile Full Stack developer with a flair for front end design. Enthusiastic about evolving web applications, databases, and creating engaging user experiences. I enjoy programming challenges and developing algorithms that tackle complex problems. My familiarity with HTML, CSS, JavaScript/jQuery, Node.js, Express.js, MySQL, NoSQL, MongoDB and React make me an excellent addition to any development team.

Skills

Web Design
Integrate function into form to create compelling user experiences.

Server Architecture
Utilize software design patterns and architecture paradigms for a streamlined and maintainable back end.

Project Direction
Proven ability to lead and manage a wide variety of design and development projects in team and independent situations.

Technical

Express.js	Jquery	React.js
Node.js	CSS3	Jest
MySQL	HTML5	MongoDB

Experience

Life Long
Computer Hobbyist/Coder   1994-present

Have been scripting and coding for over 20 years. I have developed apps in several languages including C/C++, Javascript, and Perl. Highly comfortable with coding paradigms and can pick up new libraries or languages quickly and intuitively.

InsulTek
Supervisor / Pattern Designer   2014-2021

Co-ordinate with several 3rd party organizations while managing multiple in house teams to meet client demands. Used orthographic projections in tandem with parallel and radial line development to construct 3D forms while preserving Gaussian curvature in materials.

Education

University of Toronto - Toronto, Ontario
Coding BootCamp, Full Stack — 2021-2022

Heat and Frost Insulators, Trade School - Missassauga, Ontario
Journeymen Level — completed 2011
